

# **Attention members of the Warren County Council of Sportsmen's Clubs**

WarrenPa.net is offering the Warren County Council of Sportsmen's Clubs the opportunity to have a subdomain on our site, at no cost. In addition, we will create pages within this subdomain for each member club, again at no cost.

## **Why am I offering this?**

WarrenPa.net is owned and operated by myself, Buster Darr, a lifelong resident of Warren County and avid outdoorsman. Hunting, fishing, and outdoor sports are a central theme in my family's life.

Furthermore, I believe that there should be a central location, where residents and visitors can easily find information on a wide variety of resources, services, and activities in Warren County. WarrenPa.net is growing to reach this goal.

WarrenPa.net uses no spyware, adware, or viruses. Our visitors are more important to us than making a couple extra dollars from malware companies. We do use a Google AdSense and NetAudioAds on the site, to help cover our costs.

## **What will be included?**

We would prefer to give each club space within the main subdomain, with photos from past club events, history and information about the club, membership requirements, and contact information.

In addition, we will provide a master calendar, where each club can add events. This will allow for greater event publicity, as well as allow members to set email reminders for events, which will generate an automated email from the calendar to their inbox.

## **How do we submit our information?**

Simply send your information and photos, via email, to:

[busterdarr@msn.com](mailto:busterdarr@msn.com)

In the Subject line of your email, include your club's name.

For non-digital photos - Call 723-4597 and we will meet you to pick them up, scan them, and return them you.
